## AC Aceca

1958

---

Gallery

What a pleasure to welcome this wonderfully preserved AC Aceca back in our showroom! In a world where continuous history becomes ever more important, this Aceca with chassis number AEX658 offers a well-documented and crystal clear history, with just four owners from new and less than 50.000 miles on the counter. Luckily, it spent the first 44 years of its life in the warm and dry climates of California and Australia, which explains its excellent condition: - the chassis is dead straight and undamaged and still bears its original chassis paint! - the original 2 litre AC engine CL 2351 WT runs perfectly, as amply proven through 30.000 carefree miles driven over the past 15 years, including long-distance rallying. - the body is very healthy and corrosion-free, and still sports its very attractive original Vineyard Green paint on the large majority of its surface. - the interior has a splendid patina that only thousands of miles behind the steering wheel can create. The aura of originality and authenticity that this Aceca exudes will make many classic car hearts beat faster! With only 151 examples built, the AC Aceca is quite a rare car. What are the odds of finding an entirely original, low mileage, healthy, beautifully patinated and fully functional left hand drive Aceca such as this one? Just imagine yourself smoothly cruising at the wheel of this stylish grand tourer, or showing it off in the preservation class of a major concours... Turning this daydream into reality is just one phone call away...

Brand	AC
Model	Aceca
Year	1958
Steering	Left (LHD)
