Alfa Romeo 1600 Junior Zagato

"Styled by Ercole Spada at the height of his powers, his take on the Alfa 105-series theme wasn't warmly received when it was unveiled in 1969. All manner of copyists followed in his wake, not least the first generation Honda CR-X, but none matches the purity of the template-setting original... Based on the Spider platform, its around 90 Kg lighter than the regular GT Junior/GTV and has a smaller frontal area... It feels better balanced than any other 105-series Alfa... ... the extra poke provided by the 1.6-lter version, which was first seen in 1972, makes all the difference... Comparatively few were made (1.108 1300s, only 402 1600s) so finding one is the tricky bit. Its well worth the effort." Octane magazine April 2015. Well, what can I say more? That I have a very, very nice 1600 example for sale. Matching numbers, original colour and with certification letter from Alfa Romeo Storico.
