Aston Martin DB MKIII

1958

Gallery

This model is considered by many Aston Martin enthusiasts as the nicest version of the Feltham produced DB's. This particular example in the very attractive Goodwood Green with immaculate beige leather interior, was originally sold in California what resulted in a super sound, perfect condition car at present. The engine compartiment is as sparkling as a jewellers' shop, the underneath of the car, clean, robust, undamaged and absolute rustfree. In rare LHD form very interesting for the Continental Aston connoisseur. This DB MKIII will be available from our specialised workshop in the Brussels area at the beginning of December 2004.

Brand	Aston Martin
Model	DB MKIII
Year	1958
Steering	Left (LHD)
