Aston Martin DB MKIII

1958

Gallery

Can one imagine to find a nicer Aston Martin DB MKIII as this one ? Everybody will agree that this particular Aston Martin has many positive elements to its credit. Let me point these schematically out for you : -A sought after LHD version for the continental Aston enthusiast. -Most elegant backside with DB4-style rear lights. -The most powerful(178 HP) 2nd series MKIII fitted from original with disc brakes. -Matching numbers (chassis: AM 300/3/1672, engine: DBA 1282) -Paintfinish in attractive dark racing green & beige leather interior with matching dark green piping. -Super sound chassis + straight and clean aluminium body due to long term dry climat ownership with previous Spanish collector. -In excellent mechanical health. Perfect equal compression test on all 6 cylinder. Excellent oil pressure even when hot. No tendency to overheat. -Will be totally prepared for trouble-free future use in our specialised classic car workshop. With all these strong points and with the actual fast appreciating tendency for these Feltham Astons, I am absolutely convinced that whoever buys this specific Aston Martin DB MKIII now, will have made the right decision. Will be available in our workshop very soon.
