Aston Martin Inter Le Mans Short chassis

1932

Gallery

This typical english prewar tourer with fantastic Aston Martin pedigree, is in an absolutely immaculate concours condition. Extremely rare model in the prewar Aston Martin range. Stunning, ultra detailed restoration report simultaneously described in leading classic car magazine, The Automobile. This little jewel was exhibited for a couple of years in the Charly De Pauw classic car museum in the centre of Brussels. Participated the last few years at several classic car rallies in Belgium and abroad. So this Aston Martin has proven to be in tip top running condition. Original presentation in "coffee with milk" brown and beige leather interior and weather equipment. A very rare prewar Aston Martin in fabulous condition at a fair price.

Brand	Aston Martin
