## Austin Healey 100/4 M

1954

---

Gallery

My long term classic car friends and customers know that in the early years we 'played' a lot with Austin Healey's. Several of these classic car friends have grown with us further and further into this mutual classic car passion. From now and then an Austin Healey from that period re-emerges and with this pictured Austin Healey 100/4 'M' this is again the case. This particular 100/4 was one of the quality restorations we were very proud of. The customer we sold this beauty to took very good care of his sportscar during all those years and after recent inspection of this Austin Healey I must admit that she looks still exactly in the same pristine condition as when she left my old classic car workshop approx. 8 years ago. Very little mileage was covered during these years and the car was always stored in the best conditions. After having seen at least 50 big Healey's go through my hands, this 2-tone Old English White and Dark Blue 100/4 is in my opinion, one of the nicest 100/4 we prepared. Over the years the aesthetic purity of the 100/4 became more and more obvious to me, but also the perfect road behaviour of this 4 cylinder Healey thanks to an excellent weight distribution. Fitted with the desirable 'M - Le Mans' kit, this 100/4 is a real pleasure to drive. The typical 50-ies seating position, the sporty 'bark' and amazing torque of the 2,6 four cylinder engine, the typical 3 speed gearbox with overdrive on 2-nd and 3-rd, the lowered windscreen allowing lots of fresh air, etc... make this Austin Healey 100/4 an exhilarating sportscar to enjoy.

Brand	Austin Healey
Model	100/4 M
Year	1954
Steering	Left (LHD)
