Austin Healey 3000 MKI

1960

Gallery

We bought this elegant big Healey from the president of the Austin Healey club in Belgium some years ago. The man wanted understandably the nicest big Healey in the country and therefore had spent more than 60000 Euro for its restoration. It was and still is, an absolute beauty. We sold the car to Stefaan Vandeborne, an excellent cusstomer who became over the years also a good friend. He has a real big hart for classic sports cars and a big enough wallet to spend everything that was necessary to transform this first class beautiful Healey into the best performing Healey in Belgium. We overhauled the engine once again, fitting a sharp camshaft, full flow exhaust producing and exquisite sound, 5 speed Getrag gearbox, disc brakes all round, Kenlow fan, etc..., etc... He drove in 2 years with the car approx. 40.000 km and was not put off by the warm temperatures of Italy, Corsica or Spain in the summer months. He was, and still is, entirely satisfied about his Healey. Now we offer this Healey once again for sale. The new owner gets when buying this car, a present of restoration work for a total exeeding 80000 Euro. At our selling price of 40000 Euro a tremendous extra value ! Are you the lucky fellow to own this super big Healey next ?

Brand	Austin Healey
