Bentley MKVI

1949

Gallery

- SOLD -

This Bentley Sports Saloon is a very graceful motorcar. Finished in soft green metallic over silver grey metallic, the "razor edge" lines are nicely accentuated. Sold new to the Lockheed Hydraulic Brake Company on the last day of the year 1949, this elegant sports-saloon is very well documented over all these years in England until she arrived in 1997 in Belgium in the ownership of one of my enthusiast customers. We looked after this Bentley in our specialised workshop for many years now and can guarantee the soundness of chassis and body + healthy performances from its indestructable engine and mechanics. This sports-saloon is a delight to drive ! Pace and style guaranteed... The interior has a lot of period charm with the very nice looking decorative wood and nicely mellowed maroon leather. A lot of quality motorcar !

Brand	Bentley
Model	MKVI
Year	1949
Steering	Right (RHD)
