Bugatti T37A

1927

Gallery

What a pleasure having this magic T37A going through our hands! Chassis 37283 was for more than 60 years with the last owner, an aristocratic ,well known Bugatti connoisseur here in Brussels. This fact alone, together with the cristal clear previous history make this 100% totally original and matching numbers Grand Prix Bugatti so special nowadays. Not many other Grand Prix Bugatti's can claim such a provenance... After at least 16 years of immobilisation into the charming garage of the last long-term owner sleeping peacefully side by side with other classic beauties, the Twin Cam team took great pleasure in bringing this jewel gently back into life. Our chief technician being able to give this Bugatti again a ride into the fresh open air of the country-side around our classic car garage was an almost emotional sensation. Spreading the news drop by drop amongst my classic car client èle took me less than a week to find a new home for this Bugatti. Initially sold new from the 'Omnia' Munich Bugatti dealership on the 1st of September 1927, this Bugatti Type 37A returns now after all these years back to Germany. Nobody doubts that this sensational Bugatti T37A will make her new owner very happy and proud. Vive la marque!

Brand	Bugatti
