CRM 875 Monza 1964 Isn't this a sexy little race-car? Mechanics (Topolino Giardiniera) by Aurelio Lampredi (ex-Ferrari). Tubular chassis by Ir. Massimino (from the Jano-school). Aluminium body by Fantuzzi. 1-st owner seems to have been the son of the Ferrari importer for the USA: Coco Chinetti. Hence the ancient NART stickers on both sides of the body. What a pedigree & history!
