Ferrari 330GT 2+2

1964

Gallery

Chassis: 6213 The perfect Ferrari for someone who likes the 'Cavalino Rapante' make but doesn't necessarily want the flashy image of most models. This 330GT in medium grey metallic, beautiful black original leather interior showing some lovely patina with just the polished Borrani wire wheels as a hint of the car's nobility is the perfect discreet gentlemans' express. Mind you, under this by Pininfarina designed 2+2 sportsCoupé's classy but low profile appearance, we find at the front in the engine compartiment a thoroughbred V-12 60° of 3.976 cc producing a healthy 300 horsepower! All this power is transmitted to the rear axle by a 4 speed ZF gearbox fitted with overdrive, capable of powering this 330GT to an impressive 245 Km/h. Originally sold new to a customer in Switzerland and later to a sportscar collector in Italy, this 330GT has apparently covered only 110.000 Km over all these years. This 330GT comes with Italian registration documents.

Brand	Ferrari
Model	330GT 2+2
Year	1964
Steering	Left (LHD)
