Ferrari Dino 246 GT

Some sportscars seem to find automatically their way to my classic car garage. The Ferrari Dino is certainly one of these! But tell me, who can resist - the perfect sensual shape of this baby Ferrari? - the punch of the high tech V6? - the sporty sound? - the exciting go-cart feeling on the road? - the great future this iconic Ferrari certainly has in front of her? Before I even had the time to advertise this little jewel on my website one of my regular Belgian customers (excellent combination because this fly-yellow Dino is an original Belgian Ferrari sold by the famous Brussels Ferrari dealer: garage Francorchamps!) walked-in into my showroom and bought her on the spot& Shall I reserve the next Dino for you?
