Ferrari Dino 246 GT

1971

Gallery

Original Belgian Dino sold new by garage Francorchamps. Very sexy in Fly Yellow (Belgian national racing colour) and black leather interior with overall super presentation. Very carefully detailed with plexy headlamp covers, immaculate Cromodora aluminium wheels, excellent chrome, unscratched black leather interior with correct suede dashboard cover, good quality woolen carpets, all original and fully functional instruments, etc... Sold by us to one of our good customers from our home-base Brussels, a couple of years ago, during which time we maintained the car in pristine condition for him in our classic car workshop. Passed every year the Belgian 'Controle Technique' as a normal car and registered as such for unlimited use, which should illustrate convincingly the excellent structural and mechanical condition of this Dino. Very sound, strong body. Very well tuned mechanics allowing to use this sports-berlinetta on the road as a full size go-cart. Strong sensations and exhilarating pleasure! Maybe the smallest but surely one of the greatest models constructed by Ferrari. A true sportscar icon with a great future!

Brand	Ferrari
Model	Dino 246 GT
Year	1971
Steering	Left (LHD)
