Jaguar XK 150 DHC

1958

Gallery

When it comes to describe this XK 150, the first thing that comes to my mind is: "Evergreen". This XK 150 is for many classic car enthusiasts the most typical open British sportscar produced. The more this particular XK comes in the perfectly choosen colour combination of British racing green with suede green leather interior (front seats freshly retrimmed) and black mohair hood. This ex-Switzerland Jaguar XK 150 was the 1st acquisition of what became a nice private classic car collection containing all the right makes such as Ferrari, Aston Martin, Alvis, etc... Always meticulously maintained (as Swiss enthusiasts are reputed for) chassis S82 724 ODN is a full matching nrs Jaguar (engine & cylinderhead V 5914 - 8) and, as is clear with the ODN suffix to the chassis N°, equipped with an Over-Drive. Dunlop chrome wire wheels with Pirelli Cinturato tyres underlign the beauty and elegance of this sportscar. Underbonnet inspection shows a very tidy engine compartment with nice detailing and care to all mechanical components. Also the chassis and complete underneath of this Jaguar are in a perfectly sound, clean, undamaged, original condition and demonstrate the high degree of previous mantainance. As could be expected, driving this XK 150 on the road is a very rewarding experience. Lots of smooth power from the 3,4 liter twin overhead six cylinder, precise shifting gearbox and responsive Over-Drive, excellent sensitive steering, very efficient disc brakes, etc...

Brand	Jaguar
Model	XK 150 DHC
Year	1958
Steering	Right (RHD)
