Lancia Aurelia B20 Series VI

1958

Gallery

Lancia Aurelia B20 Series VI 1958 LHD I know I am not the only one who is attracted by the discreet charm and the for its time very advanced technology of the Lancia Aurelia. If Fangio drove one in the 50-ies, it surely means something ! This particular Series VI is a well known Aurelia in the Belgian classic car scene. The last owner participated with it at numerous international rallies, amongst which several times the 'Route Nationale 7' . I remember chasing this Lancia with my Jaguar E-type along the French country-side lanes and being impressed by the cars behaviour and panache. After all it is the most powerful version with the famous full aluminium 2,5 litre V6. Very recently the last owner decided to treat his Aurelia to a bare-metal body restoration and at the same time a complete retrim of the interior. A restoration file containing many photographs demonstrate the quality of those jobs. The result is what you see here on the attached photographs: An immaculate Pininfarina-designed Coupé in typical dark Lancia blue which has convincingly proven over the years to be very well mechanically sorted. Comes with Belgian registration documents and FIVA identity card. Ready to go! Price: 85.000 euro

Brand	Lancia
Model	Aurelia B20 Series VI
Year	1958
Steering	Left (LHD)
