Lancia Aurelia B24 Spider America

1955

Gallery

I said it before after a series of Riley Imps (only 75 produced) but it seems I can probably repeat my quote once again regarding the Lancia Aurelia B24 Spider America : could it be that I am the world record holder for selling several (until now 3) of the only 240 produced in just a couple of months time ? This white B24 Spider carries chassis n° B241180 and is the one before last produced. The last 3 Spider America's (which left the factory) had a slightly different front made by Pininfarina incorporating spotlights and were equipped with all sorts of special Nardi extra's aswell to the presentation of the cockpit as to the special tuning of the engine. Just completely restored by THE Aurelia specialist in Italy, one can immediately see this B24 Spider is in an absolute top condition. A Californian customer, big fan of Italian exotic classic cars, didn't hesitate and bought this rare Aurelia right away from me...Right he is ! I am already chasing the next Spider (the 4th)...For you ?

Brand	Lancia
Model	Aurelia B24 Spider America
Year	1955
Steering	Left (LHD)
