Lancia Aurelia B24 S Convertibile 1957 LHD Chassis: B24S 1238
Body: 00239 Engine: B 24 N 1390 Yet another Lancia B24S
Convertible in stock! My classic car friends know that the B24
Convertible is one of my preferred classic convertibles. Lancia's
mechanical engineering for the B24 Convertible was just state of the
art for the 50-ies and the styling by Pininfarina absolutely in tune with
the discreet but very chique en elegant Lancia image. If you want an
open, classic, GT-car which will provide you with very refined road
manners, effortless power and lots of driving pleasure... just buy a
Lancia B24 Convertible! This example is a very sound, very straight,
very well restored B24 Convertible. The presentation is just superb in
dark metallic grey and the combination with the red leather interior is
the best one could wish for. The black canvas hood is excellent.
Chromes are all very nice, the Michelin X-Radial tyres as new. Also
the mechanical condition of this Lancia Aurelia is TOP. Very well
sorted. No rattles from the body nor hesitations from the mechanical
side. Only fun! By now you have understood: the perfect open Lancia
for you to use during this summer and many more years to come.

Brand	Lancia
Model	Aurelia B24S Conv
Year	1957
