Lancia Fulvia Coupé 1600HF Reparto Corse

1969

Sold

This Lancia Fulvia Coupé with chassis n° 818 540 001296 is one of the factory Racing Department prepared bodies for competition use which are easily recognisable at a series of modifications for fitment of the roll cage, safety harness seatbelts, 65 litre fuel tank, exterior fuel filler cap, interior brake & fuel lines, inner wing modification allowing Group4 exhaust manifold, pre-disposition for installation of extra instruments, lightweight doors, etc…

This competition prepared Lancia Fulvia 1600 HF initially painted in Amaranto Montebello, left the factory in Rosso Corsa on the first owners request. In her early years this Fulvia HF participated in Group3 hill climbs amongst which Bolzano-Mendola, Trieste Opicina, Trento-Boldone, etc… which today are nicely documented with charming black/white photos.

At the end of the 90-ies the famous Fulvia historian & collector Carlo Stella restored this 1600HF to her former glory, bringing the car back to the initial Amaranto Montebello colour. Also the period correct Fusina bucketseats with headrests + the leather trimmed Ferrero two-branch steering wheel signed Sandro Munari + a set of Carrello Megalux spotlights were preserved.

The last owner/our customer had this Lancia further prepared regardless of costs (torquy engine, carburettors, 5-speed gearbox, high capacity alternator, Group4 exhaust, hydraulic handbrake, adjustable competition shock absorbers, different sets of wheels & tyres, etc…) to participate no less than 5 times to the Historic Monte Carlo rally between 2016 and 2020. Each participation was a success and huge fun.

This Lancia Fulvia Coupé 1600HF comes with a voluminous file recapitulating the in depth preparation + a mountain of spare parts.

Seated on a nice set of Cromodora 6J13 light alloy wheels shod by excellent Avon CR6Z tyres, this very well prepared 1969 Lancia Fulvia 1600HF is looking at you wondering when you will decide to continue having lots and lots of historic rally fun together…!

Don’t wait any longer and contact us today!

Brand	Lancia
Model	Fulvia Coupé 1600HF Reparto Corse
Type	Coupé
Year	1969
Engine	1.6L
Transmission	Manual gearbox
Steering	Left (LHD)
