Mercedes-Benz 190 SL 1955 LHD Sometimes classic cars can complicate your life. Every collector knows this! Personally I don't mind to take care of my "babies" even though they are temperamental. I can however understand that not everybody wants to invest all this energy into a classic car, but for these people Mercedes-Benz created the 190 SL! The perfect classic open sports car! Very pleasing lines, good comfort, perfect weather protection, sufficient power in all circumstances, excellent reliability. What more could you wish? This example attracted my attention by the excellent quality of the recent restoration. Better than new! Beautifully assembled body panels, excellent paint finish (this 190 SL looks really superb in black!), very nicely trimmed leather interior, rare original Mercedes-Benz equipment bucket seats, very nice hood in double duck, concours condition engine bay, ultra clean underneath. As I mentioned earlier: better than new! Classic car pleasures are in the reach of everybody, or at least to the first one who will contact me about this 190 SL. You?

Brand	Mercedes-Benz
Model	190 SL
Year	1955
