Mercedes-Benz 190 SL

1958

Gallery

Classic cars can be enjoyed in very different ways: while some "car nuts" don't mind fixing a broken-down engine in the pouring rain, others quite sensibly prefer taking a reliable car out on a sunny day for a relaxing drive. For these people Mercedes-Benz created the 190 SL, the perfect classic open sports car! Very pleasing lines, good comfort, perfect weather protection, sufficient power in all circumstances, excellent reliability... what more could you wish for? This very attractive Graphite Grey 190 SL even has some additional advantages: it features the optional third-passenger transverse seat, plus a very rare hardtop with a sliding sunroof! Its engine has benefited from a full revision two years ago, and the original Solex carburetors have been replaced with the easier to tune Weber 40DCOE's, making this car perfectly fit for carefree long distance cruising. It's just waiting for two things: the sun, and you!

Brand	Mercedes-Benz
Model	190 SL
Year	1958
