Porsche 356 super 90 Roadster

1961

Gallery

This 356 is my favourite model ! The roadster variant combines the sporty looks of the speedster on which she was based, with the comfort of the convertible. The more, the high quality cosmetic presentation in black with medium green leather upholstery + same colour double duck hood, is absolutely smashing. Even better is the fact that this Porsche has a "Super 90" motorisation which was upgraded with 912 technology to 110HP ! Inspecting this 356 Roadster on the ramps, reveals a perfect chassis and super sound structure. Driving her on the road is a real pleasure. Very homogene feeling and fantastic performances. If I tell you that only last week, 5 new tyres were fitted, you will understand from all the superlatives used in my previous description that this Porsche 356 Roadster is unmistakable a Top car. Offered for sale at a realistic 76.500 euro : a chance not to be missed by the Porsche enthusiasts.

Brand	Porsche
Model	356 super 90 Roadster
Year	1961
Steering	Left (LHD)
