Aston Martin DB2 convertible

1951

Galerie

This rare 3 piece grille DB2 convertible is in a truly magnificent condition. An in depth, nut and bolt restoration resulted in one of the nicest Astons I have ever had for sale. Gorgeous beige leather interior with occasional rear children seat fitted as an extra. Superb Borrani wire wheels with new turbo speed Avon's. Engine compartment and underneath of the car are cleaner than your kitchen ! As a result, this DB2 is a really perfect drivers car producing the typical glorious Aston engine-sound. So much energy was put in this Aston Martin and this is immediately recognisable even by the non connoisseur, that buying this beauty at 85000 Euro is a laugh ! Difficult to resist... (isn't it Hans ?)

Marque	Aston Martin
Modèle	DB2 convertible
Année de construction	1951
Volant	Droite (RHD)
