Aston Martin DB4 SII Coupé

1961

Galerie

Chassis : DB4/461R I was very excited to unearth this early Aston Martin DB4 after nearly 25 years of hibernation. Only 3 owners from new (2 drove the car. 1 stored her). Totally original and unspoiled, this charming Aston makes my hands itch to bring her back to life. The now rather dull looking "deep carriage green" exterior body colour and lovely "champagne" leather interior are the exact specification in which this DB4 left the Newport Pagnell factory. The factory buildsheet confirmes this cosmetic presentation + the fact that all her mechanical components are matching originals. My specialised classic car workshop would love to execute the necessary restoration work or assist an enthusiast new owner who would like to make his hands dirty on this barnfind with tremendous potential. Considering recent auction prices obtained by a very similar DB4 barnfind, my actual selling price is a give-away.

Marque	Aston Martin
Modèle	DB4 SII Coupé
Année de construction	1961
Volant	Droite (RHD)
