Aston Martin Virage Volante

1992

Galerie

Almost too good to be true ! A crescendo of positive points : -The last handmade Aston Martin. -In desirable Volante configuration. -In LHD. -Sold new in Belgium (speedo in Km). -With a very attractive colour combination of Aston Sage green perfectly matched by a somptuous leather interior. -Fitted with a rare factory produced (and very expensive) anti-turbulence wind shield. -Having hardly been driven. In fact just a little bit more than the delivery Km's. -A NEW Virage Volante ! -At a give-away price of 83.500 euro. Too good to be true ? Not at all, this Aston Martin is waiting for you at my classic car showroom.
