Fiat 1100 tipo 103 1953 LHD ex-Mille Miglia Fancy to participate at the 2012 Mille Miglia and to be sure to be accepted? Why not participate with a popular saloon car, properly prepared for rallying, just as many Italian rally enthusiasts did in the 50-ies? This Fiat 1100 Tipo 103 is a genuine ex-Mille Miglia car which participated at the MM in 1956 and 1957 and is well documented with charming period photographs and official documents. Upgraded with period tuning items amongst which specially prepared cylinderhead, full flow inlet manifold, 8V carburettor, enlarged oil sump type Stanguellini, bigger brakes, Abarth wheels, fully equiped with extra dashboard instruments, central spotlight, etc... This Fiat 1100 is in excellent allround condition and behaves impeccably on the road and autostrada (a little "bomb"!) and is immediatly ready for the 2012 MM. The fact that this Fiat 1100 participated at the Mille Miglia in 1956 and 1957 guarantees that the next owner will be accepted in priority for the Mille Miglia Storico every time! Comes with ASI certificate and CSAI file stating correctness and historical origine of this 1100.
