JAGUAR

Jaguar E-type SII 4.2 Convertible

1970

Galerie

I sold this car approx. 10 years ago to one of my good Belgian customers. This super sound E-type came initially from the USA and performed fantastically all these years in his ownership. We maintained the car very regularly in our specialised workshop and no bad surprises were discovered. A totally reliable car ! Finished in old English white with original black leather interior in excellent condition and chrome wire wheels, the overall presentation is very nice. Combined with healthy mechanics, providing strong performances and troublefree motoring, this Jaguar E-type must be a most difficult temptation to avoid at only 40.000 euro.

Marque	Jaguar
Modèle	E-type SII 4.2 Convertible
Année de construction	1970
Volant	Gauche (LHD)
