Lancia Aurelia B20

1955

Galerie

Lancia Aurelia B20 4-th series 1955 RHD This Aurelia with chassis n° B20-3476 is a very sound and complete GT which has always been in Italy. Untouched and with matching numbers V6 2,5 liter engine this Lancia represents in our opinion a straightforward restoration project. According to the info available from the Aurelia Registro the bodycolor of this B20 was originally grey with a grey cloth interior. These great Aurelia GT's are getting year after year more and more sought after by classic car connoisseurs. Famous racing drivers from those years such as Fangio and Mike Hawthorn were convinced about the very advanced technology and perfect road behaviour of the Aurelia because they both drove one themselves.

Marque	Lancia
Modèle	Aurelia B20
Année de construction	1955
