MG TC

1947

Galerie

This MG TC is THE classic amongst the classic cars. She looks very smart on the photographs and she absolutely is right so in reality. Originally coming from England, this TC was completely restored from top to bottom by a professional, approx. 10 years ago. This restoration is very well documented by lots and lots of photographs and must have costed quite some money. Last year, our specialised workshop had to overhaul the engine because the owner did not drive his car for several years and the engine was seized. We checked the whole car and made sure this lovely MG was ready for the road. She drives perfectly now, that is for sure ! The presentation is absolutely tip top. This lovely MG is as nice underneath as she is from above. Gleaming red body on which the chrome stands out nicely with lovely beige leather upholstery. A beauty for the eye and great fun to drive. This MG TC has her whole life in front of her !
