Minerva AC Tourer

1926

Galerie

- SOLD -

Minerva AC Tourer 1926 RHD As a Belgian classic car specialist, I am very proud to exhibit this top-range 30 HP Minerva model in my classic car showroom. What an impressive motorcar! Though to have spent all her life in Spain, this particular 30 HP Minverva looks very elegant in this well proportionned, totally original coachbuilt tourer body on the standard long wheelbase chassis. Power comes from the characteristic 5,4 litre 6 cylinder sleeve valve engine. Our specialist classic car workshop has worked on these interesting sleeve valve engines before and had no problem, after a long period of inactivity, to bring this tourer back to a roadworthy condition. In fact this Minverva is actually in an excellent running condition. This very exclusive Belgian automotive jewel was chosen in the twenties by the royals, nobility, captains of industry... from all over the world.

Marque	Minerva
Modèle	AC Tourer
Année de construction	1926
Volant	Droite (RHD)
