Porsche 356 B T5 1600S Roadster 1960 LHD Chassis N°: 86975

This rare Porsche 356 Roadster model (only 2.902 ex. built on the total of 155.790 Porsche 356) represents the ultimate evolution of the mythical Speedster. Most of the classic Porsche enthusiasts agree the B T5 Roadster is the most elegant open 2 seater Porsche 356 offering the sports car sensations of the spartan Speedster but with some extra comfort thanks to a slightly higher windscreen, wind-up side windows and luxury seats. I bought this very smart looking "Ruby-Red" Roadster in California in 2007. The fact that this Porsche lived all her life in the dry weather conditions typical for California guaranteed that the structural condition of this 356 was TOP. At arrival at our classic car workshop we were really impressed by the super-good condition of this Porsche Roadster. Knowing the expectations of our European customers we took care of an in-depth check-up and sorting-out of this 356. The 1600S engine turned-out to be in excellent condition providing ample and smooth power (standard 75HP) and a very relaxed drive. Very quickly this Roadster was sold to one of my long-term Belgian customers and he was really impressed with the reliability and user-friendliness of his Porsche 356 Roadster using her for several international rallies and for holiday in France. All this to his entire satisfaction. We recently completely restored a Lancia B24S America Spider for the same customer, which he very much likes to drive. That is why this Porsche 356 Roadster now comes-up for sale. Your chance to buy this elegant, well sorted Roadster at a realistic:

Marque	Porsche
Modèle	356 B T5 1600 S Roadster
Année de construction	1960
