Porsche 356 B T6 Cabriolet 1962 LHD Matching numbers: Chassis: 156848 Engine: 607185 In the history of the automobile some engineers have proven that sometimes a simple concept works better. This is exactly how I see the Porsche 356. Simple, but very effective! Please come and test-drive this beautiful 356 B T6 Cabriolet and I am convinced you will quickly agree with me. This very well sorted 356 Cabriolet is very easy to drive, feels very homogene and has all the power one needs. A real pleasure! One of my long term customers, a real Porsche fanatic, took care of the nut and bolt restoration of this 356. After having owned several 356 models during the last 30 years, he knows exactly what do to and where to go to have the best possible result. In my opinion, his 356 B T6 Convertible is just perfect! Not only a perfect presentation in black with cognac leather interior, but also underneath extremely clean and sound. Now fitted with a brand-new 100 HP industrial Porsche engine out of the crate, but original completely overhauled engine comes also with the car. Some clever improvements, such as installation of correct "C" disc brakes on the front axle, show clearly the philosophy of "quality above rapidity" during the restoration.

Marque	Porsche
Modèle	356 B T6 Cabriolet
Année de construction	1962
