Riley Lynx Works "Monte Carlo" Tourer

1932

Galerie

Works "Monte Carlo" Tourer As you can see from the photographs, this ex-Riley Works rally car is an important and very well documented (in books, magazine articles and letters from Riley historians) piece of motoring history with not only Monte Carlo, but also RAC and Scottish rallies to its credit during the early 30ies. At present this most famous Riley Lynx is in super, very well restored condition with gleaming black coachwork and glorious looking red leather interior + complete quality, double duck weather equipment. I drove this fantastic Lynx recently on a dry winter day up and down along the country lanes and was well impressed by its behaviour and the power of the "modern" 1,1 L Twin Cam engine coupled at a smooth working preselect gearbox. This excellent usable car with glorious provenance is, I am sure, an irrepeatable opportunity to acquire at a reasonable 55.000 euro.

Marque	Riley
Modèle	Lynx Works "Monte Carlo" Tourer
Année de construction	1932
