Rolls-Royce Silver Wraith

1948

Galerie

Very elegant, not too ceremonial Silver Wraith, coachbuilt by Barker. In excellent running condition with smooth and ample power from the typicaly whispering 4 1/4 liter 6 cylinder engine. Charming interior with superb wood veneer details and separating glass between driver and passengers' compartiment. Lovely patinated grey leather upholstery with good quality woolen carpets. On first sight good presentation in medium silver but on second sight the general appearance could benefit from a respray which should be straightforward because of the excellent structural condition of this Barker body. A truly glamorous but "compact" Rolls Royce with lots of potential at a modest price.

Marque	Rolls-Royce
Modèle	Silver Wraith
Année de construction	1948
Volant	Droite (RHD)
