AC ACE Bristol

1959

Galerij

This AC was sold by us 15 years ago to one of our German customers. In its' precious life in the USA, a sportscar enthousiast had converted this original AC Bristol into an early Cobra by fitting a V8 260ci into the car. Times have changed now, and AC enthusiasts realise that these wonderfully balanced AC Bristols represent the real thouroughbread of this model. That is why the new owner to whom we sold this AC Bristol, whishes to bring this classics sportscar back to original specification.
