Alfa Romeo Giulia Nuova 1300

1975

Galerij

When it comes to an Italian equivalent of the Jaguar MKII as a classic saloon, I think the Alfa Romeo Giulia is the answer. This practical and at the same time sporty Giulia, combines all the highly appreciated Italian caracteristics in 1 compact car. Beautifully engineered technology offering surprisingly good power from the little twin overhead cam 1,3 L all aluminium engine combined to a super shifting 5-speed box. Typical breathing sound through the twin double Weber carburettors and a glorious exhaust note. Superb road handling and good comfort for the whole family luggage. This from origin Swiss car was completely restored with typical quality watch-style precision by the son of the first owner. After 5 years in regular use, she still looks impressively clean. Because of the Giulia's modest value on the classic car market, most examples are in a typical "more or less"-ok condition. This one is not ! Our Giulia on offer here is really TOP.

Merk	Alfa Romeo
Model	Giulia Nuova 1300
Bouwjaar	1975
