Alfa Romeo Giulietta Spider Veloce

1958

Verkocht

Our classic car friends know that over the years we have developed a weak spot for the Alfa Romeo Giulietta Spider. Everybody agrees it is a sweet sportscar which for its time was well ahead of its competitors.

We love the styling purity and are impressed by the technological refinement of this Alfa Romeo.

The sought after original Veloce upgrade certainly adds more pepper to this tasty dish!

Two years ago our classic car workshop completely sorted-out this Giulietta for the last Belgian owner (regardless of costs), after which this Alfa Romeo performed faultlessly at several high profile classic car rallies.

This tip-top condition Giulietta Spider Veloce (with confirmation by FCA Certificate) in the very attractive colour combination of the typical light blue Celeste (baby blue) with matching leather trim is ready for many more Kms of open top motoring fun.
