Aston Martin DB MKIII

1958

Galerij

Chassis nr : AM300/3/1543 Engine nr : DBA 1160 Matching numbers ! A regular visitor of my website will certainly have noticed over the years that I have developped a weak spot for Feltham Aston Martins. My absolute favourite model is the DB MKIII of which I recently bought and sold several in a row. Let me present you my latest acquisition. This very attractive RHD Coupé model in my favourite color combination of dark British racing green with black, in this case nicely patinated, leather interior. Complemented by 4 chrome wire wheels, shoed by great looking Pirelli Centurato tyres, the picture of this Aston Martin can not be more attractive, don't you agree ? This 2nd series DB MKIII benefits from the following very interesting upgrades : disc brakes, overdrive and the most powerful engine variant (178 HP). Sold initially in Britain, but having spent a major part of her life in Germany, where she was comprehensively restored (photographic documentation available), this Aston Martin reveals now to be a very well sorted car. Great fun to drive and...what a glorious sound from the SS sports exhaust ! Great value for money !

Merk	Aston Martin
Model	DB MKIII
Bouwjaar	1958
