Aston Martin DB2/4 Coupé

1955

Galerij

Just 2 words for this Aston Martin :"Lovely Barn-Find" ! Stored since 1980 and recently exposed again to the bright day light. Fully documented (old logbook, V5, Registration Document, factory build-sheet, + many invoices...). Apart from a respray (more than 30 years ago)- the original colour was "Moonbeam Grey" - totally original. Charming original leather interior. Matching numbers for chassis and engine (engine freely turning around). A spectacular piece just to look at ! My fingers are itching... Yours also ?

Merk	Aston Martin
Model	DB2/4 Coupé
