Aston Martin V8 "Sunroof" Coupé 1979 LHD Chassis n°: V8 SOL 12094 Engine n°: V540/2094S Matching numbers. Original Belgian car imported in February 1979 by "René Michiels", Aston Martin Lagonda distributor for Belgium, for one of his Belgian resident customers. Excellent structural condition confirming low Km total of 56.000 Km. Inspection on the ramps reveals no accident nor corrosion damage at all over the years. Was originally Old English Pewter. Now completely repainted and retrimmed in Old English Green and beige leather with dark green piping. Excellent presentation. Very attractive "seventies" appearance. Very smooth muscle car on the road. Strong sensations! Electric factory sunroof provides plenty of fresh air to keep the drivers head cool to guarantee well-mannered typical Aston Martin gentlemen behaviour.

Merk	Aston Martin
Model	V8
Bouwjaar	1979
