Aston Martin V8 Volante

1979

Galerij

You can not immagine how much I enjoyed lately our "Indian Summer" weather at the steering wheel of this beautiful V8 Volante. Great comfort, seemingly endless traction available at the rear wheels and what a refined styling. In my opinion, one of the best colour combinations suiting this sporstcar in dark blue metallic with blue mohair hood and gorgeous original cream leather upholstery. Period light alloy BBS wheels with excellent Avon turbosteel tyres. This original European LHD car has the advantage of being an easy to look after (with the 4 Weber carburettors) supercar and at the same time offering the exclusive mix of refinement, rarity and glorious pedigree. After close inspection, it is obvious that this Volante is a low milage super condition classic with lots of future fun readily available.

Merk	Aston Martin
Model	V8 Volante
Bouwjaar	1979
Stuur	Links (LHD)
