Jaguar E-type SI 4.2 L Roadster

1966

Galerij

Very attractive example of the highly praised and sought after SI 4.2 E-type roadster. Totally restored as well bodily as mechanically a couple of years ago by a Belgian professional for one of my local customers. This attractive E-type has spent the last year in the collection of one of my collector friends in the south of France, where this iconic Jaguar sportscar was very regularly admired and positively complimented. Indeed smashing presentation in old English white with chrome wire wheels, attractively complemented by gorgeous red leather interior showing just a little bit of lovely patina. Period radio. Black double duck hood and correct period perfect condition hardtop (also black). Very homogeneous and taut feeling on the road. Who would not want this superb E-type in his garage... ?
