Porsche 911 S Targa 1973 LHD OK, I agree, a Porsche 911 is not a common sight on my website. But if I was allowed to choose one, apart from the nowadays very expensive 911 RS from 1973, I would without hesitation go for this 1973 911 S Targa. The most powerful version of the classic 911 offering the extra fun of the Targa roof. This particular 911 has it all: - rust-free Californian provenance. - very classic color combination of Silber Metallic with black perforated leather interior. - The Nardi steering wheel offers an extra, very stylish touch (the original Porsche wheel comes with the car). - typical excellent condition Fuchs wheels. - Certification letter from Porsche about provenance and originality. Our specialist classic car workshop gave this 911 a thorough cosmetic detail- and mechanical tuning-job. As a result this Porsche 911 performed faultless at last summer's Rallye des Alpes eventhough driven with panache. Are you also in for some classic 911 fun? Look no further, this 911 S Targa will fit perfectly into your garage and... life!
