Siata 1100 TV

1954

Galerij

The Torinese specialist car manufacturer SIATA, has built some interesting sporty variants based on Fiat. This 1100 TV is certainly one of these variants of which only 11 ex. were ever produced. The overall design is from Siata, the realisation of the body by Vignale. A few Italian competition stables amongst which "Scuderia Sant Ambroeus", entered these sportscars in events such as in this specific case, the 1954 Mille Miglia. The previous very active Italian sportscar enthusiast and owner of this Siata 1100 TV (TV for Turismo Veloce) had prepared this sports Coupé in depth into the last detail by a renowned specialist in northern Italy (Galbiati & Pavesi) without consideration of costs. The result is a magnificent sports Coupé propelled by a superbly tuned 1100 cc, 4 cylinder producing 68 HP and revving easily to 10.500 giri. Music from a Maestro ! No wonder this Siata was accepted for the 2007 Mille Miglia... This beautiful Siata 1100 TV comes with all necessary documents (registration, FIVA identity card, ASI certificate) immediately ready for much more classic rallying fun. I am very much tempted to enjoy this Siata myself for a little while...
